Who are we ?

An association of Germans and non-Germans working together to improve relationships and integration between different cultures. We are not connected to any political party or religion.

What do we want ?

That people of different backgrounds build good relationships and go beyond mutual tolerance.

How do we hope to achieve this?

Through specific projects, e.g. :

„We speak German“...

- Informally over a cup of tea or a game
- In small organised groups
- In tandem lessons (I teach you German, you teach me French, guitar or whatever)
- At literacy courses
- At joint activities e.g.: music, dance, craft, cooking

Through deepening mutual acceptance

- By informing about the influence of different cultural backgrounds through speakers at various events, leaflets, newspaper articles etc., ...
- Through cross-cultural exchange at specific cultural evenings and events

Through practical help e.g. :

- Help with various problems
- assistance with bureaucratic formalities
- offering the use of PC
- helping to find housing, furniture, etc., ...

Through co-operation with local offices and other services eg. :

- employment office, social services, etc.
- network for integration.
- foreigners advisory board, etc., ...

Present Groups:

- German for foreigners
- Financial support/Sponsors
- Angklung(Indonesian Bamboo instrument)
- Women's department
- Internet access
- Practical help
- Events
- External contact
